

AIB Instructor-Led Online Courses

How They Work

Each AIB Instructor-Led Online Course is facilitated by an instructor who guides the class through the course and provide feedbacks on your assignments. Each week, you will receive an assignment over the Internet. Assignments may include:

- Reading a chapter in your textbook (provided through the mail before the course begins), or online
- Completing a short assignment and either sending the assignment via email to your instructor or posting it on the electronic class Discussion Board
- Taking a self-check test to verify your understanding of the material

In addition, you also will have some assignments where you collaborate with other students using electronic discussion boards and e-mail. You complete each assignment during the week, at your convenience.

The semester-length courses last for 16 weeks, including a week dedicated to the mid-term examination and the final examination. Exams and the self-check quizzes for each assignment are taken electronically over the Internet. Your overall grade for the class will be based on a combination of your performance on the weekly assignments, class participation, mid-term examination and the final examination.

Courses that are less than 16 weeks in length have at least one graded measurement of learning, typically a final exam.

Required Software

Microsoft Internet Explorer Browser 6.1 or Netscape Browser 6.2. Microsoft Excel is required for some courses.

AIB Instructor-Led Online Courses

Spring 2010 Schedule

*Registration for one or more courses that include accompanying textbooks will also incur a shipping & handling fee of \$9.50.

Course Title Length Price (Member/Nonmember)	Catalog Numbers	Start Dates	End Dates
